

I am writing concerning the benefits that K-LOVE brings to my community. They provide a quality family freindly radio station with a uplifting message. Their national size assures opportunities and quality while they are also very sensitive to local issues. They provide lots of local information and services to our area. I fear that replaceing them with a LPFM station will diminsh the positive presence that K-LOVE brings to Denver and the suburbs. It is so nice to have such a great station and such a positive message to soothe out a hectic days stress. Plus there are no worries about what the children may hear. I am so thankful to have K-LOVE in our town.
